Re: Billed Entity Number: 143679
471 Application Number: 351613
Funding Request Number: 980484
Your Correspondence Dated: April 12, 2004
Reference: CC Docket No. 02-6

We made an appeal to you on the above FRN number because we were told we had until July 1, 2003 to finish the selective review and that deadline was met.

However, one of the things you have stated to us in your letter, which is attached, is we had a request for "10 cache servers." This is NOT true. Yes, we are ordering 10 servers but they are going to be used for DHS and DHCP. These servers are "Power Edge 2600, Intel Xeon 1.8 GHz/512k cache." They are "512k cache" servers. The cache just describes that amount of memory, not that these are cache servers. When our service provider gives us a quote, it is typed as they have quoted.

We have provided for you documentation so you could see what happened.

Thank you very much for taking the time to read this.

Sincerely,

Lee Hackney

Administrator's Decision on Appeal - Funding Year 2003-2004

April 12, 2004

~~Robert T. Guillen~~

Christine Wallace

Beaumont Unified School District
500 Grace Avenue
Beaumont, CA 92223

Re: Billed Entity Number: 143679
471 Application Number: 351613
Funding Request Number(s): 980484
Your Correspondence Dated: August 15, 2003

After thorough review and investigation of all relevant facts, the Schools and Libraries Division ("SLD") of the Universal Service Administrative Company ("USAC") has made its decision in regard to your appeal of SLD's Year 2003 Funding Commitment Decision for the Application Number indicated above. This letter explains the basis of SLD's decision. The date of this letter begins the 60-day time period for appealing this decision to the Federal Communications Commission ("FCC"). If your letter of appeal included more than one Application Number, please note that for each application for which an appeal is submitted, a separate letter is sent.

Funding Request Number: 980484
Decision on Appeal: **Approved, Funding Denied**
Explanation:

- On appeal, you seek reversal of the SLD's decision to deny the funding request for failure to show that, at the time you filed the Form 471, you had secured access to the funds needed to pay the non-discounted portion of the funding request. You assert that the decision was made because the school district did not respond to the selective reviewer in a timely manner; however, when you contacted the selective reviewer regarding certain issue, you were told that the school district needed to have the information to SLD by July 1, 2003. According to your statement, the deadline was met, but the district still received denial letters for the funding requests. Consequently, you assert the district should be given another chance, as the selective reviewer gave you misinformation. In support of your request, you include the Item 25 documentation and a letter dated July 28, 2003.

- Your appeal has brought forward persuasive information that your appeal should be approved, since the requested documentation was submitted prior to the issuance of the Funding Commitment Decision Letter. Unfortunately, the SLD will be unable to provide discounts for your request for the reasons cited below.
- The Item 21 supporting documentation included a purchase order, which indicated the request was for ten (10) cache servers. The *Eligible Services List of the Schools and Libraries Support Mechanism*, p. 26 (dated October 18, 2002) clearly indicates that caching servers are ineligible.
- Your Form 471 application included costs for the following ineligible services: caching servers. FCC rules provide that discounts may be approved only for eligible services. See 47 C.F.R. §§ 54.502, 54.503. The USAC website contains a list of eligible services. See USAC website, <http://www.universalservice.org>, Eligible Services List. Program procedures provide that if 30% or more of an applicant's funding request includes ineligible services, the funding request must be denied. 100% of your funding request was for ineligible services. Therefore, your funding request was denied. You did not demonstrate in your appeal that your request included less than 30% for ineligible services. Consequently, SLD denies your funding.

If you believe there is a basis for further examination of your application, you may file an appeal with the Federal Communications Commission (FCC). You should refer to CC Docket No. 02-6 on the first page of your appeal to the FCC. Your appeal must be received or postmarked within 60 days of the above date on this letter. Failure to meet this requirement will result in automatic dismissal of your appeal. If you are submitting your appeal via United States Postal Service, send to: FCC, Office of the Secretary, 445 12th Street SW, Washington, DC 20554. Further information and options for filing an appeal directly with the FCC can be found in the "Appeals Procedure" posted in the Reference Area of the SLD web site or by contacting the Client Service Bureau. We strongly recommend that you use the electronic filing options.

We thank you for your continued support, patience, and cooperation during the appeal process.
